

Press release Cannabis Business Event at InterTabac | December 2022

**Cannabis Business Event at InterTabac
September 14-16, 2023, Dortmund, Germany**

Europe is on the road to legalizing cannabis, with Germany and Switzerland at the forefront and the CB Company is playing a significant role in this with its high-quality events. We are pleased to be able to announce a strong new partner by our side: Messe Dortmund with its flagship InterTabac event, the world's largest and most important specialist trade fair for tobacco products and smoking accessories. We will be supporting Messe Dortmund with content and network at the new EVO NXT business festival in Malaga in March and together we will be organizing a Cannabis Business Event during InterTabac in Dortmund in September 2023, focusing on the planned legalization of cannabis in Germany.

InterTabac, the world's largest and most important specialist trade fair for tobacco products and smoking accessories and InterSupply, which will take place at the same time and focuses on manufacturing processes for tobacco products, e-cigarettes, pipes and shishas, attract over 600 exhibitors and 12,000 business customers from all over the world to Dortmund each year. In 2023, the theme of cannabis will be added to the trade fair for the first time in collaboration with the CB Company: the aim is to offer the tobacco and cannabis industry the opportunity to network, to promote the exchange of knowledge and to implement joint business ideas.
